

Triennial Report

A final report is a document that shows what was done during the last three years (or the period since the start of your project if the project was started less than three years ago) and what lies ahead. It will be submitted to the BPW international board for the international congress.

This is a proposal template for an annual report. All chapters below – except for the general information – are a suggestion: if a title makes sense to you, use it otherwise delete it. If you need other chapters, please add them.

Use text, pictures, graphs as it best suits you (Note: pictures, graphs often explain more than many words). There is no restriction concerning the length of the report.

Short Overview

Travel and tourism means service to customers and also a gateway to economic progress at national and international levels. Obtaining cooperation among BPW members, promoting inclusive and sustainable growth, mutual understanding and environmental protection and climate change.

Results

In the last months we have tried to get contact about among BPW members interested in tourism. Some Countries have been enthusiastic about future cooperation, others still thinking about.

Goals for next period

Our plans for the remaining time is to try to receive from some Bpw countries some feedback on their works and at the same time some information in order to create a kind of guide line, useful for other members interested in the activity.

Challenges / Opportunities

Many problems sorted out from the very beginning. First of all, lack of communication and long times waiting answers. Our challenge now is to obtain answers from all the contacted countries. It has not been possible to organize in our country any activity to promote our Pilot.
