

Triennial Report

A final report is a document that shows what was done during the last three years (or the period since the start of your project if the project was started less than three years ago) and what lies ahead. It will be submitted to the BPW international board for the international congress.

This is a proposal template for an annual report. All chapters below – except for the general information – are a suggestion: if a title makes sense to you, use it otherwise delete it. If you need other chapters, please add them.

Use text, pictures, graphs as it best suits you (Note: pictures, graphs often explain more than many words). There is no restriction concerning the length of the report.

Results

Description what has been done within the last period and what has been achieved.

In the last period I studied the Procedure Manual in order to contribute to the interpretation of the Constitution and the Regulations according to international law. I tried to compare myself with other lawyers and together we organized meetings to widen the collaboration and to study our rules in a diversified way.

Goals for next period

What are your plans for the next period? And how do you plan to do this?

For the next period, a lawyer member must first be appointed from each Region BPW. I have asked the coordinators many times to indicate a member lawyer from their Region. Unfortunately, I did not receive an indication of lawyer member from them. It would have been very important to study the Constitution, the Regulations and the Procedure Manual from different points of view and from different Regions with different Principles of Law.

Challenges / Opportunities

What are your biggest problems, your main challenges? How could you deal with these challenges? What positive opportunities can profit you from?

The challenges: I didn't give up; I continued to study and to raise awareness on the importance of knowing our Rules and modifying them adapting them to the constantly changing the world of international law.

The Opportunities: The opportunities: Know the various legal systems of the different Regions to be prepared to confront the lawyer colleagues of each Region and start working together to achieve the objectives of the "Legal Advice" project.
