

Triennial Report

A final report is a document that shows what was done during the last three years (or the period since the start of your project if the project was started less than three years ago) and what lies ahead. It will be submitted to the BPW international board for the international congress.

This is a proposal template for an annual report. All chapters below – except for the general information – are a suggestion: if a title makes sense to you, use it otherwise delete it. If you need other chapters, please add them.

Use text, pictures, graphs as it best suits you (Note: pictures, graphs often explain more than many words). There is no restriction concerning the length of the report.
