List of Club & Federation Projects by BPW International	44
List of Member Projects	47

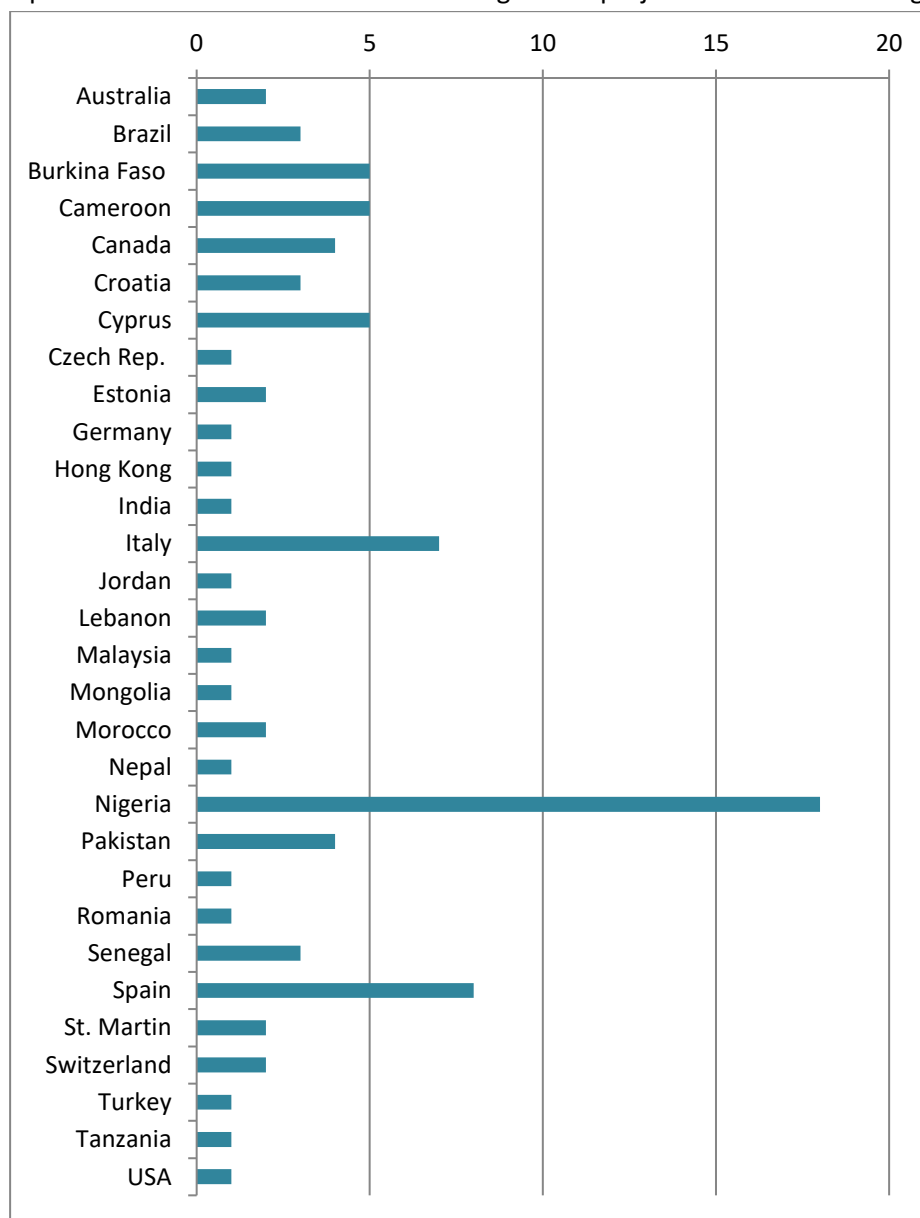

Introduction

BPW has about 30'000 members in more than 100 countries – growing (above all in the Middle East). Most of its members are from Europe (about 60%).

Club & Federation Projects

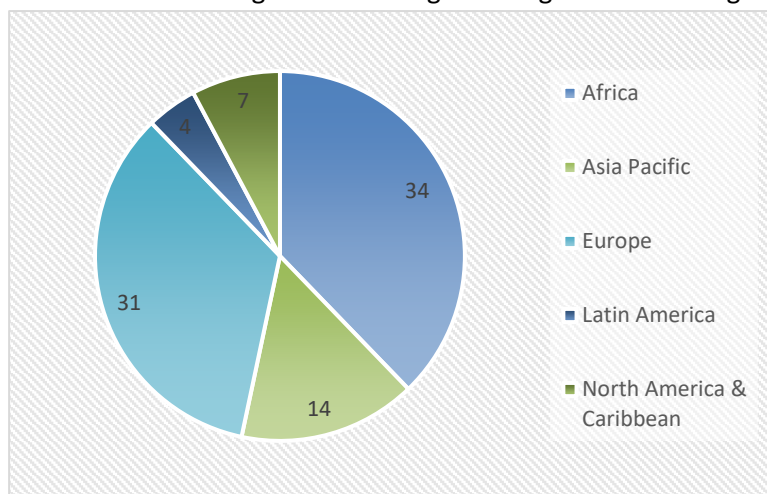

A large part of the Clubs and most Federations and Affiliates have projects running that support women and society. This booklet contains merely a part of these projects, since it only shows those projects that have been registered online. Online registration of projects done by our Clubs and Federation or Affiliates has only been possible since 2018 and not all Clubs and Federations have their projects registered yet: new ideas need their time till they everybody feels comfortable with them.

Up to December 31st 2021 we have 90 registered projects from the following countries:

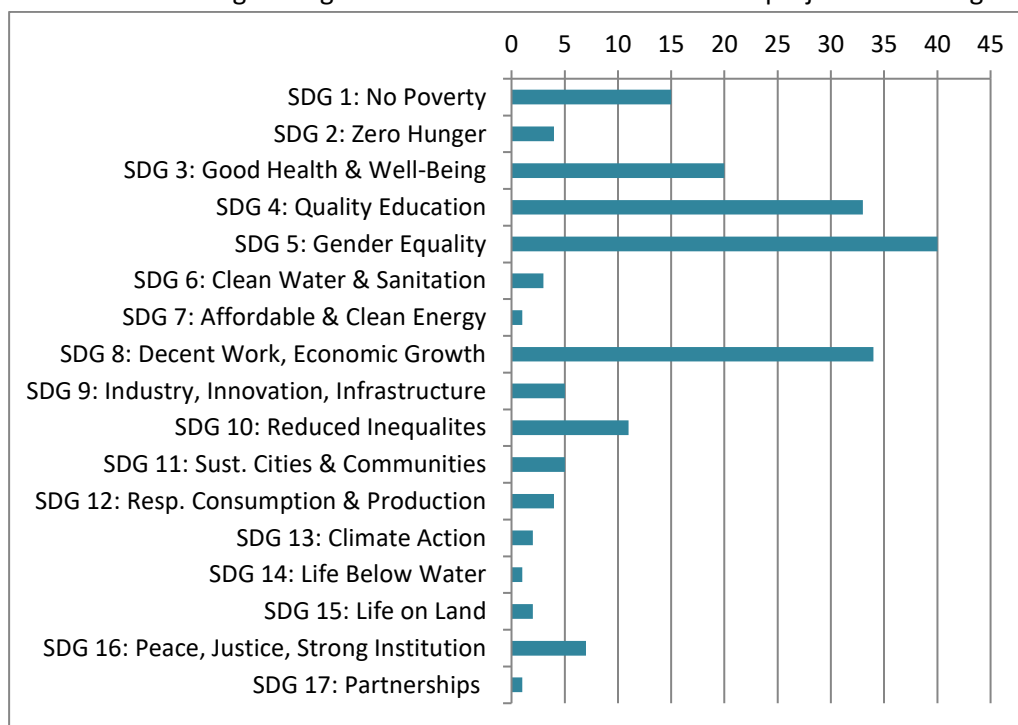

Distributed according to our five regions we get the following result:

All these projects are linked to the SDGs of the United Nations. Each project is linked to up to three SDGs. The following table gives an overview of the focus of our projects according to SDGs:

Member Projects

A few years ago (2016) BPW International has started collecting projects realized by individual members. 23 projects (3 with 2 project leaders) from individual BPW members have been registered till end December 2021. These projects are also included in this booklet. Member projects are printed in blue in the lists of projects for each SDG.

General Remarks

In the following pages we have dedicated a chapter to every SDG. In each of those chapters we have picked out some projects giving rudimentary information about them. Since a display of all projects would take up too much space, we have limited ourselves to 1 – 3 projects per country. A complete list of all projects linked to the specific SDG is added at the end of each chapter.

SDG 18 (BPW Sustainability) displays the projects that are aimed at the sustainability of BPW International.

We cannot do anything without partners. Partnerships are therefore very important for BPW International. Consequently, we have included a chapter listing projects with their partners.

More Information about the projects you find on our website: <https://www.bpw-cfprojects.org/lists/>
